DESCRIPTION

SPARTUS® ProMIG 335DP is high-end, modern inverter welding machine enabling: **MIG/MAG synergy welding with double pulse, MIG/MAG synergy welding with pulse, MIG/MAG synergy welding, MIG/MAG welding in manual setting mode, TIG Lift welding, MMA coated electrode welding.**

At a high 60% duty cycle, the maximum welding current is 300A. It is powered from three phase 400V source power.

A high-class, built-in four-roller feeder ensures stable welding wire feeding. **ProMIG 335DP** with a liquid cooler is mounted on a special welding cart that ensures full mobility of the set.

MIG/MAG welding

ProMIG 335DP with synergistic system for MIG / MAG welding allows to select the type and diameter of the welding wire. This makes it possible to weld: steel, stainless steel, aluminum, self-shielding wire welding and braze welding. In addition, the device has a number of functionalities supporting the welding process: **2T/4T / s4T / SPOT mode, Pre Gas, Post Gas, Slow Feed, Burn Back.**

For advanced synergic MIG welding with pulsation and MIG welding with double pulsation, it is possible to set: **delta pulse current, pulse frequency, puls duty, base current.**

MIG/MAG welding in manual setting mode makes **ProMIG 335DP** perfect machine for the most demanding user. An additional advantage is also the possibility of welding with the Spool Gun.

TIG Lift welding

Thanks to the solutions used, **ProMIG 335DP** also enables TIG Lift method welding with the possibility to select the operating mode of the 2T / 4T microswitch and function settings: **Down Slope** and **Post Gas.**

MMA welding

The process of joining metals in this method is additionally supported by functions: **Arc Force** and **Hot Start.**

SPARTUS® ProMIG 335DP is equipped with 10 job records, allows for quick selection of previously saved welding parameters. Modern design, bright and legible LCD function panel combined with high-class components makes **SPARTUS® ProMIG 335DP** one of the best machines in its class on the market.

SPARTUS® Pro line professional devices thanks to its quality, warranty and technical support are perfect for the production sector and industry.
